IPRO-Software

IT in a professional practice is much more than just a practice management system or video consultation programme. From refraction and lens selection to frames selection, there are powerful software solutions available to support the optician. IPRO has taken on the task of integrating the various software and hardware solutions, to reduce the necessary inputs while gaining maximum usability for winIPRO users. That is the reason for the many and often unique IPRO interfaces.

Lens Ordering Systems

	Anaxhitar		Nikon		Schulz
	AVM		Nordhorn		Seiko
	BOW		Novacel		Seleste
	Emmerich		Ophthalmica		Sola
	Edieyes Edieyes 3D XML-Client		Optic GesmbH		Starvision
	Eyeteck		Optikwerkstatt		Stratemeyer
	Hoyalog		Optiswiss		Tisco
	IGA		Optovision		UTO
	Knecht + Müller		Reize		Wetzlich
	Mailshop		E-Mail winfit Speedmaster Optiplaza		Partner Net LogON
	Mega		R+H		Your wishes
	Nika		SA Optik		

Lens Consultation

	Opsys
	WinOnline
	e-cado

	ImpressioniST
	Visupoint
	Visureal
	Video-Infral
	RV Terminal
	Visioffice
	Vinzent

Zeiss RV Terminal

CARL ZEISS VISION

Today, our customers expect the seamless integration of modern instruments and order programmes into the overall procedure. Very often, the future data interface is planned together with the software producers during the development process. IPRO has often been at the forefront of these developments, and has implemented the interfaces very quickly. We also know from our customers, that instruments which are integrated into the Practice Management system, are used more extensively than stand-alone instruments.

The very easy-to-use data interfaces of winIPRO to Video Infral or RV Terminal, are intensively used by our shared customers. IPRO has also been actively involved in implementing the new XML-based order format from the very beginning. This will become an industry standard.

Konrad Saur, Carl Zeiss Vision GmbH, Aalen
